

**Job Title:** Electronics Engineering Technician

**Location:** Hanover, MA

**Organization:** Creare

Creare is an engineering research and development firm located in Hanover, an Ivy League college town in the heart of New England. Founded in 1961 to allow innovative engineers the freedom to expand the boundaries of their engineering disciplines.

**Job Responsibilities:**

- Apply your broad electronics experience and knowledge to a variety of R&D projects to develop innovative electronic devices and equipment for biomedical, military, and space applications.
- Collaborate with Creare engineers to develop hardware prototypes from the ground up.
- Create new designs, lay out printed circuit boards, build prototypes using PCB and SMT technologies, and set up and perform experiments.

**Job Requirements:**

- You must have a solid working knowledge of electronics, be familiar with analog, digital, power, and instrumentation, and be an energetic team player.
- Electronic Design Automation CAD experience-such as schematic capture and PCB layout in OrCAD, Mentor Graphics, or Altium-is preferred.
- An Associate's degree and two years' R&D experience is a minimum (or equivalent combination of education and experience); a 4-year technology degree is preferred.
