

Job Title: **Mechanical Engineering Technician**

**Location:** Boston, MA

**Organization:** Barrett Technology

**Job Responsibilities:**

The Mechanical Engineering Technician will be an integral member of a cross-disciplinary engineering and manufacturing team supporting Barrett's existing line of robots (WAM, BarrettHand) and its new and on-going projects and initiatives including Barrett's Proficio [www.barrettmedical.com](http://www.barrettmedical.com)

The applicant should be able to stay organized and on task, work well with little oversight, and be willing to take initiative and act upon new ideas. Job responsibilities include the following:

- Assist in the design, procurement, and testing of assemblies and fixtures
- Effectively complete engineering change requests, process routers, and other quality system support
- Act as a liaison between engineering, manufacturing, and quality
- Create intuitive and complete documentation
- Support different aspects of a small company's day-to-day requirements as needed
- Potential for travel for customer installations and tradeshow

**Job Requirements:**

- U.S. citizenship
- Associate's degree in engineering or equivalent experience
- Experience with CAD systems (SolidWorks preferred)
- Personable, self-motivated, and self-directed
- Highly organized
- Interested in learning new skills and abilities

This full time position includes health care and other benefits.

Please send a cover letter and resume to [resume2015@barrett.com](mailto:resume2015@barrett.com) with the subject heading "Mechanical Technician". Applications without cover letters will not be considered.
