

Job Title: Junior Technician – Intern

Organization: Protonex (via MASSCEC Internship Program)

Location: Southborough, MA

Protonex Technology Corporation seeks a Junior Technician to assist the development and testing of fuel cell systems at its Southborough, MA office. The Company is a leading provider of portable power systems. With several successful products in production, Protonex has been on the Inc. 5000 for three years in a row as one of the fastest growing small businesses in the US.

The position will report to the Director of Mechanical and Systems Engineering, working in a multi-disciplinary design team focused on the development of fuel cell systems for unmanned aircraft and industrial fuel cell products. The ideal candidate will be an effective communicator and possess basic laboratory and machine shop skills.

The Company's culture is dynamic and ideal for individuals who are motivated by talented co-workers, minimal bureaucracy, cutting edge technology and aggressive goals. To learn more, visit <http://www.protonex.com/>.

Job Responsibilities:

- Construction of fuel cell systems
- Fabrication of product test stands
- Operation of laboratory equipment
- Assist with design and procurement of machined parts
- Writing and preparation of test reports
- Interfacing with component suppliers

Job Requirement:

- Associates Degree
- Experience with electrical and fluidic systems
- CAD experience desired - SolidWorks preferred
- Strong written and verbal communication skills
- Ability to use spreadsheet and word processing tools
- Start-up or early stage company experience is desired
- The successful candidate will be comfortable in a dynamic hands-on experimental environment, a team-player

See next page for instructions about how to apply.
