

**Job Title:** Service Tech Position

**Location:** Upton, MA

**Organization:** Co-Energy America

**Job Responsibilities:**

Upton, MA – Co-Energy America, a well established combined heat and power (CHP) company, is seeking applicants to join our field team. Position is geared toward seniors or recent graduates of technical training schools. Applicant should have automotive training and an interest in gaining mechanical and electrical experience.

As a field technician, you will be trained on routine service and repair of CHP systems, and develop troubleshooting skills to diagnose and repair disabled units. You will be responsible for performing preventative maintenance on the CHP units and preparing daily reports on work performed and communicating clearly with customers and office staff.

Training will be provided, and Co-Energy’s highly experienced team is always available for guidance. Tech will work under the supervision of the Service Manager. Field Technicians are provided with a company vehicle, health insurance and \$15-20/Hr depending on background.

**Job Requirement:**

- Knowledge of gas engines
- Ability to understand and follow operations and maintenance manuals
- Ability to read schematics
- Ability to communicate clearly and effectively
- A valid driver's license and clean driving record
- Self-motivated and able to work both independently and on a team
- Energetic and positive attitude, and willingness to learn
