Job Responsibilities:

Milton CAT is seeking an Earthmoving Service Technician. Technicians are responsible for the diagnosis, repair, reconditioning, overhaul and maintenance of customer and company heavy equipment and components. Depending on the location and assignment, the technician will be responsible for some or all of the functions and duties listed below. These repairs may require working hours in addition to the normal work schedule for emergency calls or routine service as required.

Essential Duties :

- Service and repair crushing & screening products.
- Removes, disassembles, assembles, and installs components and parts.
- Identify the problem and cause of failure through logical troubleshooting steps.
- Determines reusability of parts in accordance with published Caterpillar reusability guidelines.
- Orders replacement parts ensuring that parts ordered are correct and complete at time of order.
- Cleans, repairs, reconditions, and maintains equipment and components.
- Tests, measures, and adjusts engine and machine systems and components.
- Prepares, inspects and operates machines prior to delivery.
- Prepares inspection and appraisal reports.

Job Requirement:

To perform this job successfully an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and ability required.

- Associates degree in a related field is preferred.
- Proficient in mechanical systems (transmissions, engines, hydraulics, etc.).
- Proficient in the use of a computer and related software (Word, Excel, etc.).

To apply:

You must apply online.
