

Job Title: Licensed Optical Associate (Part-Time)

Location: Stoneham, MA

Organization: US Vision

U.S.Vision, Inc., a wholly-owned subsidiary of Refac Optical Group, is a retailer of optical products and services operating licensed departments in over 750 retail locations in 48 states and Canada, primarily in national and regional department stores and a major wholesale club.

Our retail optical departments are full-service retail vision care stores that offer a wide selection of designer brands and private label prescription eyewear, contact lenses, sunglasses, ready-made readers and accessories. Also, an on-premise, independent doctor of optometry performs complete eye examinations and prescribes eyeglasses and contact lenses. Our wide selection of designer and private label branded eyewear allows us to tailor our merchandise selection to meet the needs of our host store customers.

We operate a single, modern optical laboratory, distribution and lens grinding facility at which we fill customer orders for prescription eyewear and maintain a central inventory of frames. Customer orders are placed at the retail stores and are transmitted into the central optical laboratory daily, where the lenses are ground, cut, finished and custom fitted to optical frames in the size and style selected by the customer. The finished eyewear is then shipped to the retail store for delivery to the customer within a few working days or overnight if express service is utilized. To learn more, visit: <http://www.usvision.com/>.

Job Responsibilities:

- The optical associate completes paperwork and computer data entries as necessary to place and process orders and perform some technical operations such as making eyeglass adjustments, taking measurements and reading the lensometer.
- It is the responsibility of the optical associate to work cooperatively and respectfully with supervisors, and fellow lab associates.
- Customer satisfaction is the optimum goal.

Job Requirements:

- Must be licensed to work as an optician within the State
- Prior optical experience preferred but not required
- Must possess proven track record of customer service
- Prior retail experience required, at least one year
- Strong computer systems knowledge/experience required

Interested applicants should please fill out [application on our website](#) .
